

# Sylvanvale Support Coordination

## Navigate your NDIS supports with confidence

Managing an NDIS plan can feel overwhelming. Plans often include multiple funding categories, confusing NDIS terminology, and pages of complex information that can be difficult to interpret and navigate. That's where Support Coordination comes in.

At Sylvanvale, our Support Coordination team are experts in the NDIS. Their role is to help you understand your plan, connect with the right services, and make the most of your funding while working towards your goals.

## How We Support You

Your Support Coordinator will help you:

- Understand and unpack your NDIS plan, including how your funding can be used
- Find and connect with the right service providers and assist with service agreements
- Prepare for NDIS plan reviews and ensure your needs are clearly presented
- Liaise with key stakeholders to ensure your supports align with your goals
- Seek Supported Independent Living (SIL) and help arrange home modifications to suit your needs
- Support Requests for Review of Decisions (RRoDs) and assist with the Administrative Review Tribunal when needed

## Build Your Independence

Our team focusses on capacity-building by supporting you to gain the skills and confidence to set and reach your personal and NDIS-aligned goals, empowering you to take more control of your NDIS journey.

## Why Choose Sylvanvale?

Sylvanvale is a trusted NDIS provider committed to high-quality, person-centred support for people with disability and their families. With more than 75 years of experience enabling independence for people with disability, we have the knowledge and skills to support you to live the life you choose.
